

I will complete my work!

When I'm at school, I need to be ready to learn. To help me learn, my teachers assign class work to help me understand the new content in class.

Sometimes I get frustrated when I'm doing my work because I don't understand it or would rather be doing something else. I can always ask my teacher for assistance or a short break to help me get back to work.

I need to remember the importance of completing my class work. When I am focused and engaged, completing the work my teacher assigns will help me remember the content I learn in class.

Dinosaur Completes His Work!

- Dinosaur likes to learn. He wants to make his teachers and parents proud.
- To help Dinosaur learn, he needs to complete his work in class.
- By completing his work, he will make good grades and learn many cool things!
